MESSAGE FROM THE PROPRIETOR

Welcome!

Thank you very much to look at Anex International. I have been involved in C&F business for 25 years. At the very inception of the business, my objective was to provide the highest level of service to the customer. That's why Anex International developed its equipment division and transportation systems. Having own crane, forklift and trailer, Anex international can deliver the goods on time. On the other hand, due to the presence of experienced and skilled manpower, the customer's products are cleared from the custom house very quickly.

Most companies rely on the equipment support and transportation systems of others but Anex International does not. That's why Anex International is superior to other companies in term of providing service on time.

Welcome you again to the sky of Anex and let us an opportunity to prove us.
